

Script

Introduction:

I will be putting you in a short 30 second simulation in one of 4 conditions using the Oculus Rift S. While in the simulation you will immediately listen to a short voicemail. Please verbally respond to the question posed to you by the person in the voicemail.

Character Description

Female: Your avatar in the simulation is an incoming undergraduate 1st year student. She has not yet declared a major. She has never taken a computer science course before.

Male: Your avatar in the simulation is an incoming undergraduate 1st year student. He has not yet declared a major. He has never taken a computer science course before.

Procedure

Have them sit in your chair

Describe position of the avatar

Put on headset and headphones

Make sure both are functioning

Play simulation

Wait for response

Remove headset

Have them fill out the survey sent earlier in email form

Take note of verbal response, gender, name, and survey responses
